

ReSorb

Pendulum

ACOUSTICS
by design

An adaptable and cost-effective solution providing both sound absorption and visual blocking. Suspended from the ceiling ReSorb Pendulum is easily fitted and configured providing convenient customisable space-division in open plan environments to prevent sound propagation.

Design your unique room divider with coloured fabrics or images giving scope to blend with existing schemes or create a feature. Hung from the ceiling as individual panels, ReSorb Pendulum can also be used as baffles to reduce reverberation.

ReSorb Pendulum panels are laminated on both sides using the Hush or Blazer range of fabrics or customised using a print graphic/illustration of your choice to create a bespoke design. Made in 12 interchangeable standard sizes, it has a thickness of 50mm for good sound absorption. Panels are easily mounted using its two accompanying arched wires and suspended vertically from the ceiling using hangers. Hanging wire/ wire hook total height: 50/ 100/ 150 mm.

ReSorb

Pendulum

The core material ECOSUND® is visible from the side and is available in three colours: white, black, and grey. Made from 50% recycled PET material bottles and containers and 50% new PET fibres it is manufactured responsibly without glue or adhesives to provide an anti-allergenic material (OEKOTex® Standard 100 approved). Environmentally responsible ECOSUND® is 100% recyclable.

ReSorb Pendulum is made using 50mm ECOSUND®, a high-quality sound absorbent. NRC rating class A- extremely absorbing.

With standard fabrics ReSorb Pendulum has been fire rated B-s1,d0. according to European Standard EN-13501-1
