

ReSorb

HEX TILES

ACOUSTICS
by design

Available in 4 different styles and 15 colours, ReSorb Hex Tiles are designed to control reverberation (echo) in meeting rooms, board rooms, class rooms, tele conference rooms.

Manufactured from thermally bonded polyester fibre with up to 80% recycled fibre content from post-consumer PET packaging such as empty drink bottles, ReSorb Hex Tiles 100% recyclable and are a class A absorber.

The ReSorb Hex Tiles have been acoustically tested by an approved lab and are class A absorbers with the additional acoustic absorption fitted as standard.
